## Engagement Model

### Fixed Price Project

If the business requirement is small and project scope is well defined, client can select this engagement model of fixed price.

### Build Dedicated Team

If the business requirement is complicated and scope of the project cannot be defined in the start of the project, then client can go with the Time and Material based engagement model.

### Full Team Transfer Option

If required Cybermedia Software can build and transfer the whole project team to the client side depending on the mutual agreement with the client
